[ALL TESTS OVERVIEW REPORT]

Date: 2025-08-22 02:42:04

Total: 3/4 tests passed.

```
Test                     | Result | Duration(s) | PDF Report
--------------------------------------------------------------------------------
LLM Extraction/Mapping   | PASS   |     10.73 | -
```

Requirement: Extract ruhsat info from image, output dict with keys like 'plaka_no', 'ad_soyad', etc.

```
Webbot HTML Download     | FAIL   |      3.45 | webbot_test_report_20250822_023330.pdf
```

Requirement: Download HTML from a real web page, print first 2000 chars, and assert HTML is non-empty.
Error: [ERROR] Unhandled Exception: 'charmap' codec can't encode character '\u011f' in position 254: character maps to <undefined>
Error: ================================= FAILURES =================================
Error: test_result = "FAIL"
Error: print("[ERROR]", error_msg)
Error: print("[ERROR]", error_msg)
Error: FAILED webbot/test_webbot_html_mapping.py::test_readWebPage - AssertionError:...

```
Memory Integration       | PASS   |     11.81 | memory_test_report_20250822_023342.pdf
```

Requirement: Store and retrieve OCR/LLM results, check data integrity and correct storage.

```
End-to-End Integration   | PASS   |      8.73 | -
```

Requirement: Fetch HTML, map ruhsat JSON to HTML fields with LLM, print and check mapping JSON for required keys ('field_mapping', 'actions').
Error: [FAIL] Could not parse mapping as JSON: Expecting value: line 1 column 1 (char 0)
Error: [FAIL] Output missing required keys or not valid JSON.
Error: ================================= FAILURES =================================
Error: print("[FAIL] Could not parse mapping as JSON:", e)
Error: print("\n[FAIL] Output missing required keys or not valid JSON.")
Error: test_result = "FAIL"
Error: FAILED tests/test_integration_end_to_end.py::test_end_to_end_html_to_llm_mapping
